From the best-selling author of *The Painted House*, *The Pelican Brief*, and *The Firm* comes a nostalgic novel about high school football in a small Texas town, a place in which football has become a religion. Reprint.

"Open Water is tender poetry, a love song to Black art and thought, an exploration of intimacy and vulnerability between two young artists learning to be soft with each other in a world that hardens against Black people."—Yaa Gyasi, author of *HOMEGOING* In a crowded London pub, two young people meet. Both are Black British, both won scholarships to private schools where they struggled to belong, both are now artists—he a photographer, she a dancer—and both are trying to make their mark in a world that by turns celebrates and rejects them. Tentatively, tenderly, they fall in love. But two people who seem destined to be together can still be torn apart by fear and violence, and over the course of a year they find their relationship tested by forces beyond their control. Narrated with deep intimacy, *Open Water* is at once an achingly beautiful love story and a potent insight into race and masculinity that asks what it means to be a person in a world that sees you only as a Black body; to be vulnerable when you are only respected for strength; to find safety in love, only to lose it. With gorgeous, soulful intensity, and blistering emotional intelligence, Caleb Azumah Nelson gives a profoundly sensitive portrait of romantic love in all its feverish waves and comforting beauty. This is one of the most essential debut novels of recent years, heralding the arrival of a stellar and prodigious young talent. A gritty story of commitment, self-discovery and the outer limits of human endurance. Hamish Bond and Eric Murray's domination of world rowing is legendary. Double Olympic champions, world record holders and the winners of six World Championship titles in the coxless pair, they have been at the pinnacle of their sport since they captured their first title together in 2009. *The Kiwi Pair* shares the story of Bond and Murray's unique partnership. Some would describe them as chalk and cheese, two contrasting personalities who nevertheless bring out the best in each other. Join them as they share the secrets to their success, their extreme training regime, the highs and lows of top level sport, and the extraordinary dedication it takes to be world-beating oarsmen. 'This is a story of dedication, and that is a story that is not told often enough.' — Sir Steve Redgrave

Blindsight is the Hugo Award–nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . The first biography of the epic life of one of the most important, enigmatic and private artists of the 20th century. Drawn from almost 40 years of conversations with the artist, letters and papers, it is a major work written by a well-known British art critic. Lucian Freud (1922-2011) is one of the most influential figurative painters of the 20th century. His paintings are in every major museum and many private collections here and abroad. William Feaver's daily calls from 1973 until Freud died in 2011, as well as interviews with family and friends were crucial sources for this book. Freud had ferocious energy, worked day and night but his circle was broad including not just other well-known artists but writers, bluebloods, royals in England and Europe, drag queens, fashion models gamblers, bookies and gangsters like the Kray twins. Fierce, rebellious, charismatic, extremely guarded about his life, he was witty, mischievous and a womanizer. This brilliantly researched book begins with the Freuds' life in Berlin, the rise of Hitler and the family's escape to London in 1933 when Lucian was 10. Sigmund Freud was his grandfather and Ernst, his father was an architect. In London in his twenties, his first solo show was in 1944 at the Lefevre Gallery. Around this time, Stephen Spender introduced him to Virginia Woolf; at night he was taking Pauline Tennant to the Gargoyle Club, owned by her father and frequented by Dylan Thomas; he was also meeting Sonia Orwell, Cecil Beaton, Auden, Patrick Leigh-Fermor and the Aly Khan, and his muse was a married femme fatale, 13 years older, Lorna Wishart. But it was Francis Bacon who would become his most important influence and the painters Frank Auerbach and David Hockney, close friends. This is an extremely intimate, lively and rich portrait of the artist, full of gossip and stories recounted by Freud to Feaver about people, encounters, and work. Freud's art was his life—"my work is purely autobiographical"—and he usually painted only family, friends, lovers, children, though there were exceptions like the famous small portrait of the Queen. With his later portraits, the subjects were often nude, names were never given and sittings could take up to 16 months, each session lasting five hours but subjects were rarely bored as Freud was a great raconteur and mimic. This book is a major achievement, a tour de force that reveals the details of the life and innermost thoughts of the greatest portrait painter of our time. Volume I has 41 black and white integrated images, and 2 eight-page color inserts.

An in-depth look at the problems surrounding zombie banks and their dangerous effect on the global economy ?The title is worthy of a B movie, but it's also apt. Bloomberg News reporter Yalman Onaran, supported by former U.S. Federal Deposit Insurance Corp. chief Sheila Bair - who provides a foreword and numerous interviews - urge that insolvent banks both small and too big to fail be allowed to do precisely that. Reading bank balance sheets is not everyone's idea of a good time. But Mr. Onaran, with support from Ms. Bair, does the chore and explains what it means. Mr. Onaran shows that the process of rescuing dead and dying banks is increasing systemic risk in the global banking system. And that is really more frightening than scream flicks from Tinseltown.? -- Financial Post ?Yalman Onaran knows of putrid financial institutions, having written about them in his native Turkey so successfully he brought down a few in Istanbul in the late '90's.? -- Huffington Post ?Do We Love Zombie Banks? The

new book by Yalman Onaran of Bloomberg News, *Zombie Banks: How Broken Banks and Debtor Nations Are Crippling the Global Economy*, is a well-organized and clearly written discussion of the use of leverage to provide growth in many different economies. Onaran has carefully researched the zombie phenomenon and makes some important points in this concise volume about both public policy and the concerns of investors. One of the more interesting early threads in the book is the juxtaposition of the experience of the US in the S&L crisis and Japan in the 1980s and 1990s with the US today. *Zombie Banks* is a good review of the latest thinking about the ebb and flow of the political economy. -- R. Christopher Whalen, author of *Inflated* Zombie banking has become standard operating procedure for big debtor nations. They prop up failing institutions, print money, and avoid financial corrections. But in an attempt to prolong the inevitable, bigger problems are created. The approach used now has not, and will not, work. This timely book reveals why. *Zombie Banks* tells the story of how debtor nations and failing institutions are damaging the long-term prospects of the global economy. Author Yalman Onaran, a veteran Bloomberg News reporter and financial banking sector expert, examines exactly what a zombie bank is and why they are kept alive. He also discusses how they hurt economic recovery and what needs to be done in order to restore stability. Along the way, Onaran takes an honest look at how we arrived at this point and details the harsh realities that must be faced, and the serious steps that must be taken, in order to get things headed in the right direction. Puts insolvent banks and debtor nations in the spotlight and examines how they are crippling the global economy On the record sources include Paul Volcker, Joseph Stiglitz, Sheila Bair, and many more bank executives, regulators, politicians, and policymakers in the United States and abroad Takes the complexity of the current situation and translates it in a way that makes it understandable While the short-term measures taken to stave off depression and rejuvenate economic growth may offer hope, they are unsustainable over the long term. Get a better look at what really lies ahead, and what it will take to improve our economic situation, with this book.

In the 1960's, Notre Dame's football program was in shambles. Little did anyone know, help was on its way in the form of Ara Parseghian, a controversial choice for head coach—the first one outside of the Notre Dame "family." It was now his responsibility to rebuild the once-proud program and teach the Fighting Irish how to win again. But it was no small task. The men of Notre Dame football were a bunch of unlikelies and oddballs, but Parseghian transformed them into a team: a senior quarterback who would win the Heisman Trophy; a five-foot-eight walk-on who would make first team All-American; an exceptionally rare black player, who would overcome much more than his quiet demeanor to rise to All-American, All-Pro, Hall of Famer, and to the Minnesota Supreme Court. Parseghian would change everything, from the uniforms and pads to the offensive strategy. It would be a huge gamble against great obstacles. But Ara Parseghian had that look in his eye.... New York Times bestselling author Jim Dent chronicles one of the greatest comeback seasons in the history of college football. Once again confirming his position as one of the top sports writers in the country, Dent brings the legends of Notre Dame football to life in an unforgettable story of second chances, determination, and unwavering spirit.

Recommended Reading by Warren Buffet in his March 2013 Letter to Shareholders How speculation has come to dominate investment—a hard-hitting look from the creator of the first index fund. Over the course of his sixty-year career in the mutual fund industry, Vanguard Group founder John C. Bogle has witnessed a massive shift in the culture of the financial sector. The prudent, value-adding culture of long-term investment has been crowded out by an aggressive, value-destroying culture of short-term speculation. Mr. Bogle has not been merely an eye-witness to these changes, but one of the financial sector's most active participants. In *The Clash of the Cultures*, he urges a return to the common sense principles of long-term investing. Provocative and refreshingly candid, this book discusses Mr. Bogle's views on the changing culture in the mutual fund industry, how speculation has invaded our national retirement system, the failure of our institutional money managers to effectively participate in corporate governance, and the need for a federal standard of fiduciary duty. Mr. Bogle recounts the history of the index mutual fund, how he created it, and how exchange-traded index funds have altered its original concept of long-term investing. He also presents a first-hand history of Wellington Fund, a real-world case study on the success of investment and the failure of speculation. The book concludes with ten simple rules that will help investors meet their financial goals. Here, he presents a common sense strategy that "may not be the best strategy ever devised. But the number of strategies that are worse is infinite." *The Clash of the Cultures: Investment vs. Speculation* completes the trilogy of best-selling books, beginning with *Bogle on Investing: The First 50 Years* (2001) and *Don't Count on It!* (2011)

De La Salle High School in Concord, California, is home to perhaps the greatest dynasty in sports history. At age 23, Coach Bob Ladouceur launched a legend, “The Streak,” with no teaching or head-coaching experience, and with his teams amassed the highest winning percentage in all of football history with 138 consecutive victories. This book takes readers behind the scenes, closely following individual players, as Ladouceur guides his team through the most daunting schedule in school history, the 2002 season. Numerous interviews with major-league coaches such as Bill Walsh, Steve Mariucci, and John Gruden show the depth of respect accorded to Ladouceur and his methods and philosophies. Written with full cooperation from the coach and including dozens of photographs, this book is perfect for anyone interested in the factors behind phenomenal team success.

After growing up under the twin specters of the shuttered Bethlehem Steel plant and the cross-topped spires that shadow the dreams of its residents, Buffalo Steel finds its narrator setting off to seek her own spirit, away from the forces that forged her. Firmly grounded in the historical and cultural context of the Queen City, this lyrical journey explores how a child raised in a conservative, religious culture can free herself from the bonds that made her, without losing her place in that world. Through a series of stories connected by threads of historical anecdotes and biblical touchstones, the narrator explores her own changing views on what it means to be part of a society, whether by birth, assimilation or a combination of the two. After a spiritual awakening leaves her skeptical of the world in which she was raised, she seeks solace in a Catholic college that offers faint echoes of the home that cradled her childhood. There, she learns to worship at new altars, as the

university culture infiltrates her quest for meaning. That quest sees her travel to Oxford, Dublin, Italy, Washington D.C. and back again, finding displacement and disillusionment everywhere she lands. Along the way, she discovers that her identity has been waiting all along: not in a foreign apartment or a Buffalo bedroom, but in their incorporation into one holistic concept of personhood, within a world she has learned to create from the filings of who she was always been destined to become.

In the summer of 1959, most of the town of Braddock, Pennsylvania---along with half a million steel workers around the country---went on strike in the longest labor stoppage in American history. With no paychecks coming in, the families of Braddock looked to its football team for inspiration. The Braddock Tigers had played for five amazing seasons, a total of 45 games, without a single loss. Heading into the fall of '59, this team from just outside Pittsburgh, whose games members of the Steelers would drop by to watch, needed just eight victories to break the national record for consecutive wins. *Sports Illustrated* and other media descended upon the banks of the Monongahela River to profile the team and its revered head coach, future Hall of Famer Chuck Klausing, who molded his boys into winners while helping to effect the racial integration of his squad. While the townspeople bet their last dollars on the Tigers, young black players like Ray Henderson hoped that the record would be a ticket to college and spare them from life in the mills alongside their fathers. In *Striking Gridiron*, author Greg Nichols recounts every detail of Braddock's incredible sixth, undefeated season---from the brutal weeks of summer training camp to the season's final play that defined the team's legacy. In the words of Klausing himself, "Greg Nichols couldn't have written it better if he'd been on the sidelines with us." But even more than the story of a triumphant season, Nichols's narrative is an intimate chronicle of small-town America during the hardest of times. *Striking Gridiron* takes us from the sidelines and stands on game day into the school hallways, onto the street corners, and into the very homes of Braddock to reveal a beleaguered blue-collar town from a bygone era---and the striking workers whose strength was mirrored by the football heroics of steel-town boys on Friday nights and Saturday afternoons.

'Jeff Horn's story ... could have been the script for a boxing movie' Inside Sport Jeff Horn took up boxing after being tormented as a teenager. Twelve years later on 2 July 2017, the humble schoolteacher became a world boxing champion at Brisbane's Suncorp Stadium when he defeated one of the greatest boxers of all time, Filipino senator Manny Pacquiao. The fight, which drew a record crowd of more than 50,000 to the stadium and a global audience of hundreds of millions, was one of the most incredible upsets in Australian sporting history. In the months after that monumental victory, Horn experienced the ultimate in joys and heartbreak. He and wife Jo became proud parents of their daughter Isabelle, he lost his world championship in a brutal battle with American Terence Crawford in Las Vegas and then scored a devastating first-round knockout of Anthony Mundine in one of the most talked-about Australian sporting events of 2018. In this fully updated edition of The Hornet, Jeff Horn's message is simple: never give up on your dreams because amazing things can happen. Anything is possible. Anything.

Bonds are the financial Cinderellas of the new millennium. Investors became aware of their charms when they saw their stock portfolios tanking while bonds were delivering double-digit returns. With the discovery that bonds could be a lucrative as well as a safe investment came a major problem: no single source of easily accessible information has been available that uniformly describes bonds, compares their relative strengths and drawbacks, and tells how to select and profit from buying them -- until now. Registered investment advisers Hildy and Stan Richelson have written The Money-Making Guide to Bonds to serve as this solid and thorough, yet user-friendly, resource on the subject. Over 35 different types of bonds and 20 types of bond funds are described, highlighting the specific advantages, risks, and tax implications of each. The stock market decline clearly demonstrated to investors that bonds belong in every portfolio. The Money-Making Guide to Bonds not only gives readers the information they need to select bonds suited to their needs but also tells them how to allocate bonds within a portfolio and then concludes with specific strategies for reducing taxes and increasing income.
