A corporation is an artificial legal person, existing only in the contemplation of law, having perpetual succession and common seal. Can a corporation commit crime, for its inability to form mens rea? If yes, then can it be accused of crimes as grave as homicide? Even post the Bhopal Gas Tragedy and the Uphaar Cinema Tragedy, absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act, 2007 (UK) is no less a pity. Absolute liability theory (coupled with deep-pocket theory), though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence. This book is an attempt to ponder over issues relating to corporate criminal behaviour, in particular 'corporate homicide' and 'corporate manslaughter'.

You're either a Purple Cow or you're not. You're either remarkable or invisible. Make your choice. What do Apple, Starbucks, Dyson and Pret a Manger have in common? How do they achieve spectacular growth, leaving behind former tried-and-true brands to gasp their last? The old checklist of P's used by marketers - Pricing, Promotion, Publicity - aren't working anymore. The golden age of advertising is over. It's time to add a new P - the Purple Cow. Purple Cow describes something phenomenal, something counterintuitive and exciting and flat-out unbelievable. In his new bestseller, Seth Godin urges you to put a Purple Cow into everything you build, and everything you do, to create something truly noticeable. It's a manifesto for anyone who wants to help create products and services that are worth marketing in the first place. If you enjoyed reading this, check out Seth Godin's business classic This is Marketing.

This comprehensive guide to the strategic management of information systems within business and public sector organizations integrates the two, often disparate, domains of strategic management and information systems. Focusing on managing information systems within a broader organizational context, it covers key issues such as: \* corporate strategy \* information systems strategy from both practical and theoretical perspectives \* contemporary information systems strategic issues \* the technical versus social debate in information systems strategy \* ways forward for the application of strategic thinking. With strong pedagogical features and lecturer aids, this useful guide will be a valuable resource for undergraduates in the fields of business, management and information systems.

The essential argument of this book is that the current crisis of US unions ought to be considered in terms of the local context of labor-management relations; that is, the communities in which men and women live and work. Whether by design or necessity, the structure of New Deal national labor legislation has sustained, and maintained, distinctive local labor-management practices.

The Iran-United States Claims Tribunal is arguably the most significant arbitral institution of the twentieth century. Although the completion of its last few cases could take a long time, the Tribunal's impressive work must be made available now as a guide to the resolution of ongoing disputes and for future tribunals. The Tribunal has, by this point, disposed of well over 98 percent of its caseload. Little more remains
