Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. performer, student and music lover has embraced these short, compelling piano pieces and made them their own. This edition presents, for the first time, a majority of the "Songs" in new arrangements for solo guitar. Of the forty-eight original works, thirty are included here, meticulously edited and realized for performance on guitar. The arrangements are literal, in that they endeavor to present Mendelssohn's music as unchanged as possible. The keys are different, but the music is otherwise remarkably faithful to the original scores. Most important, though, the arrangements are each devised with real, concert-tempo performance in mind, and so have been carefully fingered for maximum playability.
