

## Tareekh Ibn Asakir Urdu

### The Scribes of the Prophet

Although this volume deals with the part of al-Tabari's History covering the years 12 and 13 (633-35), in the caliphates of Abu Bakr al-Siddiq and 'Umar b. al-Khattab, the narratives contained in it, which are lengthy and detailed, are concerned with the first Muslim conquests in Iraq and Syria. Although it might be expected, therefore, that this volume would be a basic source for these conquests, the actual value of the bulk of the reported traditions is in considerable doubt because most of the material is derived from a later Kufan traditionist, Sayf b. 'Umar (d. 170-93/786-809), who apparently exaggerated and distorted his material considerably. Indeed, Sayf's transmissions clearly reveal the tendency of his party, an anti-Shi'ite faction based on the Arab Mudar tribal group in al-Kufah that had lost out with the fall of the Umayyads and the coming of the 'Abbasids to power. Although Sayf's transmissions thus have limited value as far as the earliest conquests themselves are concerned, they are of the utmost value in revealing the content and character of Islamic historical debates in the late 2nd/8th century. In addition, they permit us to elucidate and reconstruct an early harmonizing tendency in Islam that undoubtedly had a significant effect on the way later Muslims viewed their earliest history. The translation is preceded by an introduction analyzing the tendencies of Sayf and his party as revealed in this volume. Extensive notes accompany the text for the benefit of historians in other fields, as well as of Islamic specialists.

When Rock Wolfe was fourteen, he tried to kill his father. Twenty years later, someone else finished the job. Now Rock is returning to New York for the reading of the billionaire's will. No way did Derek Wolfe leave anything to his oldest son, but according to Rock's brother, his presence is required. Estate attorney Lacey Ward isn't looking forward to the reading. None of Derek Wolfe's children will be happy, least of all his oldest. When Rock enters the conference room, Lacey is stunned. He's a rebel--a biker all muscled and gorgeous in black leather. This won't be easy, especially since she can't stop staring at him. Rock pays no attention to the reading. He's lost in a fantasy of bending his father's hot attorney over a desk. He's not a commitment kind of guy, though, and she screams white picket fence. Sparks fly between them, but the murder lurks in the back of their minds. Rock knows all his family's secrets...or so he thinks. Mysteries seem to hide everywhere--mysteries that threaten not only his and Lacey's future but their lives as well.

'Ali ibn 'Asakir (1105–1176) was one of the most renowned experts on Hadith and Islamic history in the medieval era. His was a tumultuous time: centuries of Shi'i rule had not long ended in central Syria, rival warlords sought control of the capital, and Crusaders had captured Jerusalem. Seeking the unification of Syria and Egypt, and the revival of Sunnism in both, Ibn 'Asakir served successive Muslim rulers, including Nur al-Din and Saladin, and produced propaganda against both the Christian invaders and the Shi'is. This, together with his influential writings and his advocacy of major texts, helped to lay the foundations for the eventual Sunni domination of the Levant – a domination which continues to this day.

Fadak in History is a work by the martyred Imam Muhammad Baqir as-Sadr. It was really, according to the historical period, in which it was written, a unique study because it relied on modern scientific methods in investigating the details and the documents related to the case. It engaged the reader in a debate that was profound, logical and exact.

The Diwan of Shaykh Muhammad ibn al-Habib, (1290/1871 - 1391/1972), is a masterful transmission of the essential teachings of the tasawwuf based squarely on the Book and the Sunnah, in a clear and accessible classical Arabic, and in this edition accompanied by an uncluttered English translation.

This comprehensive work of cultural history gives us something we have never had: a view of the Crusades as seen through Muslim eyes. With breathtaking command of medieval Muslim sources as well as the vast literature on medieval European and Muslim culture, Carole Hillenbrand has produced a book that shows not only how the Crusades were perceived by the Muslims, but how the Crusades affected the Muslim world - militarily, culturally, and psychologically. As the author demonstrates, that influence continues now, centuries after the events. In The Crusades the reader discovers how the Muslims reacted to the Franks, and how Muslim populations were displaced, the ensuing period of jihad, the careers of Nur al-Din and Saladin, and the interpenetration of Muslim and Christian cultures. Stereotypes of the Franks in Muslim documents offer a fascinating counter to Western views of the infidel of legend. For readers interested in the Middle Ages, military history, the history of religion, and postcolonial studies, The Crusades opens a window onto a conflict we have only viewed from one side. The Crusades is richly illustrated, with eighteen color plates and over five hundred line drawings and black and white photographs.

This is biographical material that al-T'abari appended to his History, bringing together biographies of Companions and successors of the Prophet. Many chapters are devoted to women who played a role in the transmission of knowledge.

Cet ouvrage est une publication de référence résumant l'opinion des sunnites sur la règle de succession après la mort du prophète Mahomet. Il révèle un talent pour la sélection et la synthèse plutôt que pour l'interprétation originale, caractéristique de la majeure partie des écrits d'al-S?y?t?.

This book is an abridgment of my earlier work entitled, Adh-Dhikr wad-Du'a wal-'Ilaj bir-Ruqyah mina'-Kitab was-Sunnah. In order to make it small and easily portable, I have chosen only the section on words of remembrance for this abridgment. To achieve this, I only mentioned the text of the words of remembrance instead of the entire Hadith. I also limited myself to mentioning only one or two references from the original book for each Hadith. Whoever would like to know about the Companion who related a particular Hadith, or more information about where it is recorded, should refer to the original work (mentioned above). I ask Allah the Glorious, the Mighty, by His beautiful Names and by His sublime Attributes to accept this as having been done sincerely for His sake alone. I ask Him to bring me its benefits during my lifetime and after my death. May those who read it, those who print it, or have had any role in distributing it, benefit from it also. Surely He, glory be unto Him, is Capable of all things. May the peace and blessings of Allah be upon our Prophet,

Muhammad, and upon his family and Companions and whoever follows them in piety until the Day of Judgment. Said bin Ali bin Wahaf Al-Qahtani, Safar, 1409

Biography of Khalid ibn al-Walid, d. 641 or 2, general of Islamic Empire.

Islam's fourth caliph, Ali, can be considered one of the most revered figures in Islamic history. His nearly universal portrayal in Muslim literature as a pious authority obscures centuries of contestation and the eventual rehabilitation of his character. In this book, Nebil Husayn examines the enduring legacy of the nawasib, early Muslims who disliked Ali and his descendants. The nawasib participated in politics and scholarly discussions on religion at least until the ninth century. However, their virtual disappearance in Muslim societies has led many to ignore their existence and the subtle ways in which their views subsequently affected Islamic historiography and theology. By surveying medieval Muslim literature across multiple genres and traditions including the Sunni, Mu'tazili, and Ibadi, Husayn reconstructs the claims and arguments of the nawasib and illuminates the methods that Sunni scholars employed to gradually rehabilitate the image of Ali from a villainous character to a righteous one.

Bridges' translation aims to help non-Arabic readers in pondering the Qur'an (tadabbor). The translators focused not only on translating what God meant to say, but also on translating how He spoke. There are three main new features in this translation that make it unique: 1. It is the first translation which includes the ten Qira'at (modes of recitation). The main text is written in accordance with the Qira'a of Asem, narrated by Hafsa. Variations from that are presented in footnotes denoted by 'Q'. The translation presents around 30% of the variations of the Qira'at--those which affect the meaning. 2. It is the first translation that takes into consideration the Qur'anic phenomenon of grammatical shifts, whether in verb tenses, numbers, or pronouns. These are a great source of pondering for the reader. 3. To denote whether a pronoun like 'you' or an imperative verb like 'say' is plural, dual, or singular, the translators did not impose their understanding on the reader by adding text between brackets like (O Prophet) to denote singular form, or (O mankind) to denote plural form. Rather, this distinction was achieved by adding a superscript after pronouns and imperative verbs. For example: youpl is used for a plural pronoun, yousg for a singular pronoun, and youdl for a dual pronoun.

This Atlas is new in its subject, a subject that has not been touched before. It helps whoever recites the Qur'an or studies it to specify the locations mentioned by the Noble Verses, and to mark those places of ancient people mentioned in the Qur'an. This is besides locating areas where the incidents of the prophetic Seerah occurred. Eventually the diligent reader will easily recognize those places, learn about them, and take heed of them while reciting. Eventually the diligent reader will easily recognize those places, learn about them, and take heed of them while reciting. The Atlas has also revealed obscure places we used to pass through inattentively, like the site where Nuh's Ark settled, the site of the curved Sand-hills {Al Ahqah}, the cave of the young faithful men, the houses of median, the site of Sodom and other places determined by the Atlas depending on reliable sources. Thus the Atlas eliminates all the guessing and the fantasies we used to encounter when reciting the Noble Quran, and takes us to the specific place.

Mernissi recounts the extraordinary stories of fifteen queens and reflects on the implications for the ways in which politics is practiced in Islam today, a world in which women are largely excluded from the political domain.

The life of Imam Hasan (as) was both eventful and full of lessons, and yet the significance of his role seems to have been ignored, forgotten, or eclipsed by the extent of focus on Imam Husayn (as). Why has history blackened the radiant face of that Imam in whose adoration forty thousand people unanimously raised their hands to pledge allegiance, and the outside of whose house was continually overflowing with people?

Centuries after his death, al-Ghazali remains one of the most influential figures of the Islamic intellectual tradition. Although he is best known for his *Incoherence of the Philosophers*, *Moderation in Belief* is his most profound work of philosophical theology. In it, he offers what scholars consider to be the best defense of the Ash'arite school of Islamic theology that gained acceptance within orthodox Sunni theology in the twelfth century, though he also diverges from Ash'arism with his more rationalist approach to the Quran. Together with *The Incoherence of the Philosophers*, *Moderation in Belief* informs many subsequent theological debates, and its influence extends beyond the Islamic tradition, informing broader questions within Western philosophical and theological thought. The first complete English-language edition of *Moderation in Belief*, this new annotated translation by Aladdin M. Yaqub draws on the most esteemed critical editions of the Arabic texts and offers detailed commentary that analyzes and reconstructs the arguments found in the work's four treatises. Explanations of the historical and intellectual background of the texts also enable readers with a limited knowledge of classical Arabic to fully explore al-Ghazali and this foundational text for the first time. With the recent resurgence of interest in Islamic philosophy and the conflict between philosophy and religion, this new translation will be a welcome addition to the scholarship.
