Intelligent and educated, he is a teacher in Sudan when he leaves his home and family for the bush, to fight for freedom and human dignity. At home, his sons must fight their own battles, as violence and death by malnutrition increase. Yet, nothing is quite as horrific as the way man treats man in the African battle for peace. The Broken Promise is based on the true terrors of the Sudanese Civil War. Fighting for the prosperity of his country, Makeer is blind-sided by the hypocrisy of his leaders while dodging bullets and watching his family die. He finds strength in moments of hope, mixed with intense despair, but is hope enough to keep him fighting while the world goes mad? Makeer might glimpse ultimate victory touch for a moment high ideals and morality but he soon comes face to face with blackmail and murder in South Sudan, a new country he helped carve out of the Sudan. War is a thing of corruption and betrayal, which Makeer learns first hand. However, he fights onward, proving that no amount of suffering will ever suppress the quest for human dignity.

In Singapore, when one orders char siew fan (rice with barbecued pork) he gets siew yoke (roast pork) and siew cheung (roast sausage) as part of the deal. Author Benny F. H. Lee, a trade consultant, who isn't too fond of barbecued pork, always tell the

stallholder to hold the char siew and give him the rest. When he did the same in Hong Kong, the stallholder grew mad with rage. In Hong Kong, char siew fan means rice with barbecued pork and nothing but. Telling him to hold the char siew meant asking him for plain rice. That incident wrenched Benny out of the delusion that he understood the culture in Hong Kong simply because he shared a common Chinese dialect. The same is the case with many international marketers who assume they know a foreign market because they speak the local language. In his book *Hold The Char Siew*, Benny breaks down the basics of marketing in the Asian continent. To his credit, Benny has over thirty years of international marketing experience. In 1994 he left the corporate world and set up his own export consultancy. Since, he has successfully consulted with MNCs in various countries. He is also a well-known speaker and writer, who has been published in *The Business Times* among others.

SUATU hari, kereta katak Ariel rosak di tengah jalan. Seorang mekanik datang untuk membantu. Mekanik ni nampak lain daripada yang lain. Bersarung tangan, berkulit cantik dan bertopi baseball. Tiba-tiba Ariel rasa suka pada mekanik ni. Eh, takkan aku boleh suka kaum sejenis pulak?! Mula-mula bertentang mata dengan tuan punya kereta katak ni... Amir terpegun. Handsome gila! Aduh, boleh angau aku dibuatnya. Alamak, macam mana nak cakap

dengan dia ni? Alah... terpaksa dia berlakon jadi orang bisu. Sejak itu, Ariel sering berkunjung ke bengkel kereta tempat Amir bekerja. Niatnya ikhlas... dia ingin bersahabat dengan Amir. Dia dapat rasakan Amir ni seorang yang pelik, tapi baik hati. Namun, Amir mula rasa bersalah. Sampai bila dia harus berlagak seperti orang bisu? Sudahlah bahasa isyaratnya main taram saja. Dia cuba nak jauhkan diri, tapi Ariel pula makin hampir. Eeii... mamat ni tak faham ke buat-buat tak faham? Mana boleh mekanik selalu berada di samping CEO? Nanti dipandang serong pula. Ah, lantaklah... ada aku kisah?

AKU AININ SOFIYA, hanya seorang pembantu rumah separuh masa. Tugasku bukan setakat mengemas rumah, malah urusan dapur diserahkan kepadaku. Buat pertama kalinya, asam pedasku mendapat pujian. Dalam diam, aku diintai oleh salah seorang anak majikanku, Ahmad Ziyad. Rupa-rupanya, asam pedasku menjadi kegemarannya. Namun tidak kusangka, dia ingin melamarku, hanya kerana ingin membantuku dari segi kewangan. Aku bukan mata duitan! Aku hanya bekerja di rumahnya dengan hasil usahaku sendiri. Setelah berfikir panjang, aku menerima lamarannya, tetapi dia meletakkan syarat. Perkahwinan ini harus dirahsiakan daripada pengetahuan keluarga dan teman wanitanya. Aku juga tidak dibenarkan hamil. Malah, aku tidak dimaafkan jika perkara itu berlaku. Sampai bila aku harus berlakon dan menyorok statusku? Jiwaku terseksa menjadi isteri rahsianya walaupun halal di sisi agama. Ziyad seolah-olah tidak memahami perasaanku. Hidupku

terseksa dengan permainannya sehingga takdir menentukan aku hamil anaknya!

In the run-up to the Eid holiday, the police department is drained of staff and the DUKE expressway jammed with vehicles, as many in Kuala Lumpur leave the capital to celebrate the end of Ramadan with their extended families. In the slow lane, a Mercedes E200 suddenly veers after several bright flashes and comes to rest against the guardrail. When the highway patrol arrives, what looked like a traffic accident turns out to be an apparent murder? suicide of the driver and his female passenger, both having suffered gunshot wounds. Yet, called to lend a hand with the investigation, Inspector Mislán finds something else again. The dead man and woman, a wealthy, politically connected entrepreneur and his business associate, were by all appearances engaged in a long-term affair, seemingly in love, and the crime scene doesn't add up for suicide. But then, if these two successful people were murdered, why? And how, when the car was locked from

the inside? And why does the political establishment want the case closed in such an awful hurry? Once again, Mislan must find a way—with the help of his team and his politically savvy boss—to withstand the pressure from above, solve an impossible mystery, and ensure that justice prevails.

Imagine you are held aloft by a group of wonderful women from Uganda, Ghana, Botswana, South Africa and Niger. Then with skill and grace you are carried across Africa to meet engaging characters that they know well. Reading The Pot and other stories is both a delightful literary experience as well as a journey deep into intimate spaces on the Continent. Although the stories are individualistic and they tackle a variety of themes, there is seamlessness in the style. Each writer presents us with characters that take you by the hand into vividly painted worlds. Each writer seems to pick up where the other left off. Each has achieved storytelling excellence. Eight stories, eight writers, five countries, one remarkable journey. Reading this collection we are reminded that Africa is a birthplace of human kind and as such the origin of all storytelling. These writers have skilfully crafted a collection that honours an ancient tradition. This anthology presents a range of issues. Some stories paint everyday life

with a light comic touch as in the story in which a policeman sees the future of his marriage suddenly tied to the destiny of a cooking pot, while others use the mundane as the vehicle to probe difficult questions of destiny or the role of a local story-telling in a country with a brutal history.

This book extensively reviews Polypropylene (PP), the second most widely produced thermoplastic

material, having been produced for over 60 years. Its synthesis, processing and application are still accompanied by vigorous R&D developments because the properties of PP are at the borderline between those of commodity and engineering thermoplastics. Readers are introduced to various tacticities and polymorphs of PP, and their effects on structural properties. Further, the book addresses the control of optical properties using nucleants, provides strategies for overcoming the limited cold/impact resistance of PP, examines in detail the effects of recycling, and presents guidelines for the property modification of PPs through foaming, filling and reinforcing with respect to target applications. Special attention is paid to descriptions and models of properties as a function of morphological variables. Last but not least, the book suggests potential practical applications of PP-based systems, especially in the packaging, appliances, building/construction, textile and automotive sectors. Each chapter, written by internationally respected scientists, reflects the current state-of-art in the respective field and offers a vital source of information for students, researchers and engineers interested in the morphology, properties, testing and modeling of PP and PP-based systems. The content is indispensable to the appropriate application of PPs and related composites.
